Log Files

As is true of most Web sites, we gather certain information automatically and store it in log files. This information includes internet protocol (IP) addresses, browser type, internet service provider (ISP), referring/exit pages, operating system, date/time stamp, and click stream data.

We do not link this automatically-collected data to personally identifiable information. IP addresses are tied to personally identifiable information to prevent and block abusers to keep using our services such as members who violates our terms of service.

We use a third-party tracking service that uses cookies and log files to track non-personally identifiable information about visitors to our site in the aggregate of usage and volume statistics to determine how our users navigate through our website and to know how many users are using our services demographically.
